Amerongen Not Thrilled By Kaiser's Bride-To-Be

Arrival of Hermine Creates Little Stir; Ex-Crown Prince Reaches Doorn

AMERONGEN, Holland, Nov. 2 (By The Associated Press).—The impending arrival here of Princess Hermine, of Reuss, bride-to-be of former Emperor William of Germany, is creating little excitement. The princess is to be a guest at Count Goddard Bentinck's castle, the onetime Kaiser's first residence in exile.

The lord of the manor himself no longer resides in the castle, having gone to Switzerland in a huff after a quarrel he is reported to have had with the local authorities over taxation. The present residents of the castle, who will act as hostesses, are Count Bentinck's daughter, Elizabeth, who in 1920 married Captain Sigurd von Ilseman, of William's entourage. The correspondent of The Associated Press was not challenged to-day when he crossed the bridge over the moat leading to the castle. All efforts to interview occupants of the castle, however, were vain.

A few hours later a large motor truck, loaded with trunks and hat boxes, entered the castle gates, and it was assumed by the townspeople that Hermine would spend the night in Amerongen Castle.

De Valera's Supporters To Protest to Vatican

Regard as Presumption Activities of Hierarchy in Behalf of Free State

DUBLIN, Nov. 2 (By The Associated Press).—"The Republican Bulletin" tonight contains the following resolution adopted by Eamonn de Valera's supporters in the Dail, meeting as a separate body:

"We ask the President to make representations to the Vatican, formally and emphatically protesting, as head of the state, against the unwarrantable action of the Irish hierarchy in presuming and pretending to pronounce authoritative judgment upon the question of a constitutional and political fact now at issue in Ireland—namely, whether the so-called provisional partition Parliament, set up under the threat of an unjust war and by a coup d'etat, was the rightful legislature and government of the country, or not, and in using the sanction of religion to enforce their own political views and compel acquiescence by Irish republicans in a usurpation that entails no less consequences than the partition of the ancient territory of our nation, the loss of its sovereignty and declared independence and the imposition of a test oath that amounts to disfranchisement of republicans, who have regard for the sacred bond of an oath and will not take it without meaning to keep it."

American Relief Worker Shot by Turks Recovers

ATHENS, Nov. 2.—Enoch R. Applegate, of Jersey City, the Near East relief worker who was seriously injured in a recent attack by Syrian bandits on a relief party near Aleppo, in which Lester James Wright, of Waukegan, Ill., another Near East relief worker, was killed, is recovering in a hospital in Beirut.

Wright's death was instantaneous, details of the encounter show a bullet through the neck severing the spinal cord. Applegate received a fragment of a bullet in the leg. Dr. Milleray and his wife, the other Americans in the party, were unharmed.

The attack occurred on French territory. The bandit party was composed of Turkish irregulars who fired a volley into the Near East relief column without warning. In the column were 200 children, half Greek and half Armenian, who were being conveyed from Harput to Aleppo. Wright was buried in the American cemetery at Beirut yesterday.

Germany Wants Loan To Stop Mark's Fall

Will Make Request in Answer to Allies' Demand for Views on Finances

BERLIN, Nov. 2 (By The Associated Press).—The official discussions between the Allied Reparation Commission and Dr. Hermes, German Minister of Finance, have reached the stage where they are warranted in asking the German government to state its views on the establishment of the budget equilibrium and limitation of the floating debt.

Dr. Barthou, who is president of the commission, communicated this request to Dr. Hermes at the close of to-day's discussion, and the minister on Friday will present a carefully prepared memorial dealing with all phases of German currency and financial and economic conditions in the relation to reparations.

This presentation of specific data will name as a cardinal condition an international loan to be floated at the earliest possible period, in order to accelerate any movement calculated to halt the further disintegration of the mark.

Allowing that some time will elapse before such a loan would be available for practical purposes, the German government will indicate its willingness to undertake temporary measures looking to stabilization of the mark.
